Soalan 1

Sebanyak 328 unit pili bomba di kawasan KADUN Sg. Pinang. Daripada 328 unit pili bomba ini, 320 unit pili bomba berada dalam keadaan baik dan sedia untuk digunakan manakala 8 unit pili bomba lagi tidak berada dalam keadaan baik dan rosak. Namun yang demikian, 8 unit pili bomba yang rosak ini berada dalam senarai tindakan pembaikan Jabatan Bomba dan Penyelamat Malaysia Negeri Pulau Pinang. Walau bagaimanapun, 8 unit pili bomba yang rosak tersebut tidak menjejaskan proses pemadaman kebakaran di kawasan tersebut kerana masih terdapat pili bomba yang dalam keadaan baik di dalam lingkungan kawasan tersebut. Rujuk jadual dilampirkan untuk senarai dan kedudukan pili bomba dan kawasan KADUN Sg. Pinang

Soalan 1 (a)

Adun Sg Pinang (328 Unit)

Berdasarkan pra rancang dan kajian risiko kawasan tersebut, didapati pili bomba sedia ada di Kota Giam telah mencukupi dimana terdapat unit pili bomba di kawasan Flat Kota Giam. Perkara ini sama bagi kawasan Kampung Rawa dan Tokong Batu dimana terdapat unit pili bomba dan mencukupi di sekitar jalan utama. Namun yang demikian, tiada perancangan untuk penambahan pili bomba dan kawasan kampung yang jauh ke dalam disebabkan laluan masuk yang sempit dan perkara paling utama ialah tiada sambungan paip utama ke kawasan pendalaman kampung. Walau bagaimanapun, sekiranya terdapat kebakaran di kawasan tersebut, Jabatan Bomba dan Penyelamat akan menggunakan sumber terbuka dan Jentera water tank untuk kegunaan pemadaman.

Soalan 1 (b)

Untuk makluman, Jabatan Bomba dan Penyelamat Malaysia (JBPM) melalui Bahagian Keselamatan Kebakaran sebenarnya telah mempunyai pelan dan buat masa ini telah berada dalam fasa pelancaran dimana JBPM telah aktif mempromosikan Teman Pili Bomba dimana pili bomba sedia ada mempunyai penjaga yang mana akan menjaga pili bomba tersebut dan memastikan sentiasa dalam keadaan baik. Selain itu, JBPM turut giat menubuhkan bomba komuniti. Pasukan Bomba Komuniti ini merupakan pasukan dari kalangan penduduk di satu kawasan perumahan yang berperanan sebagai tindakan awal bagi kecemasan dan JBPM akan melatih pasukan ini untuk memadam api di peringkat awal iaitu ketika keadaan api yang kecil. Sebagai tambahan, JBPM juga sentiasa mengadakan kempen dan pameran kebombaanan untuk mengingatkan orang awam tentang perihai bahaya kebakaran dan bagaimana untuk mencegah kebakaran.
